

## On Time

The Hellacopters

Always gonna be here with you  
Till the day that you die  
Wrapped up in an institution  
Asking me why

I can be at service  
But mostly I just make you nervous  
But you know that I would never lie

I'm day, night, right, some or any  
Expensive luxury  
And I'm one, two, three, for all or many  
Scars in cheap history

I breed anticipation  
And I don't do negotiations  
And you know that I might even deceive

I'm on my way and I never wait  
And I always get by  
I'm the contrary picture  
And on time

Well, you're always gonna face me  
For sure or even in doubt  
At one point or another you'll do your best to race me  
But you're never gonna carry it out

Always being present  
I'm senile and adolescent  
And you know  
I'll make you whimper and shout

I'm on my way and I never wait  
And I always get by  
I'm the contrary picture  
And on time
