

# Sometimes I Don't Know

The Hellacopters

My minds eye  
Is looking out for number one  
With reasoned rhyme  
Gonna destroy and get the damage done

All or nothing want the whole nine yards  
They call it safe but I will be in my guard  
Dead set wanna get it gotta see the glow  
But sometimes I don't know where to go

Hey there girl  
Do you know it ain't the summer of love  
Want the world  
To know just what I'm thinking of

Flaming cities burning with the rock  
Get kids numb by the state of shock  
There ain't no reason to get out or go down take a blow  
But sometimes I don't know, where to go

Who dares wins and survive  
Fight Jihad against the jive

My minds eye  
[Incomprehensible] is looking out for number one  
With reasoned rhyme  
Gonna destroy and get the damage done

All or nothing want the whole nine yards  
They call it safe but I will be in my guard  
Dead set wanna get it gotta see the glow  
But sometimes I don't know  
Sometimes I don't know  
Sometimes I don't know, where to go
