

# Take Me On

The Hellcopters

Come on, I want you, take me on  
Take me in, we should be long gone  
Been long looking, where have you been  
I'll kick down the door, if you don't let me in

Take me on, take me in  
Roll up your sleeves and go, let it begin  
Well take a side, and we'll take from this  
If you're ready, come and let me, show me that you're  
down

Come on and give me all that you got  
Well give me your best, now wont you give me a shot  
She not been looking, where have you been  
Going chasing the tail of what you could have been

Take me on, take me in  
Roll up your sleeves and go, let it begin  
Well take a side, and we'll take from this  
If you're ready, come and let me, show me that you're  
down

Take me on

Well, come on i want you, take me on

Take me on, take me in  
Roll up your sleeves and go, let it begin  
Well take a side, and we'll take from this  
If you're ready, come and let me, show me that you're  
down

Take me on...
