

The Electric Index Eel

The Hellacopters

Electric eyes, keep track of what I'm doing
Extensive index files knows my way
Before I'm movin'
And they get the picture developed before it's taken

I'm disillusioned but they sure know my way 'round
And they cast no shadow, don't make no sound
And they're ahead of time, it blows my mind
I'm tied up and it gets me down

Well, I say cold hard facts, you say paranoia
You don't have to react, they got device
To do it for 'ya
And they know the rhythm, girl before it's set in motion

I wanna talk to you but I know we ain't talkin' alone
Feels like someone else is on the phone
And top secrecy is blowin' me
I'm tied up and it gets me down

I wanna talk to you but I know we ain't talkin' alone
Feels like someone else is on the phone
[Incomprehensible]
And they're ahead of time, it blows my mind
I'm tied up and it gets me down
