

Bad Call

The Hives

You come up against me, and it's just you and some friends
It's a bad call
Last seen with the money but you don't know where it went
It's a bad call
You sit in an electric chair
'Cause you say you did it all but you better beware
You can't afford one, so you buy ten
It's a bad call

And there you go do it again
I've got feeling and I've had it before
You're telling me you gotta have it all
You wanna know what I'm talking about
I tried to tell you, but you wouldn't listen, would you?

Bad call
It's what I'm talking about
But you wouldn't listen, would you at all?
It's what I'm talking about
You win, you fall, you lose it all
Bad call, bad call, bad call, bad call, bad call

You won the first hand, it's gonna happen again
It's a bad call
Tried to get rich, now you live in a tent
Bad call, bad call
You want it, you don't have it
You can't earn it, so you steal it
Is that a good call?
No, it's a bad call

And there you go do it again
I said there you go do it again
Well, we all know that you've been at it before
You're gonna fuck up again some more
You wanna know what I'm talking about
I tried to tell you but you wouldn't listen, would you?

Bad call
It's what I'm talking about
But you wouldn't listen, would you at all?
It's what I'm talking about
You win, you fall, you lose it all
Bad call, bad call, bad call, bad call

Wohoo, wohoo
Bad call, bad call, bad call, bad call
Wohoo, wohoo
Bad call, bad call, bad call, bad call
Wohoo, wohoo
Bad call, bad call, bad call, bad call

Bad call
It's what I'm talking about
But you wouldn't listen, would you at all?
It's what I'm talking about
You win, you fall, you lose it all

Bad call, bad call, bad call, bad call

Bad call
