The Hives

Do you know the secret hand shake - you best use it.
Here they come with ringing ears - social misfits.
Someone has got to go
just thought you should know and so it had to be
the one who held the key.
Check the time T-5 and you're still looking.
Too good to be true - so what's the secret.
Someone has got to go
just thought you should know and so it had to be
the one who held the key.
