

Without The Money

The Hives

One, two, three, four.

See I only wanna have a good life
One I could live and wouldn't have to despise
But I only wanted you to know
That without the money
There's nothing you can do

There are those that never had to work it out
Come from places where green from trees fall
But I only wanted you to know
That without the money that talks through and through
Without the money
They're just like me and you

You can't slide into empty hand
From the house up on the hill
And you
On the back of a thousand dollar bill
See I only wanted everything but me

Yeah I only wanted everything for free
Yeah
