

## Spinners

### The Hold Steady

Once she figures out what's wrong  
Put another record on  
She picks it up and she carries her cross  
Heartbreak hurts but you can dance it off

Sure, some nights she'll curse these clubs  
She's two years off some prairie town  
She goes out almost every night  
She dresses up and she spins around

The same guy buys another round  
To let her know he's interested  
The nights go on forever now  
But the morning comes so quick  
You've gotta loosen your grip

Never let them tie you up  
It's a big city, there's a lot of love  
Salted rims and frosted mugs  
You gotta get back out there

Flat champagne and inbound trains  
Soft hands and phantom pains  
Never let them tie you up  
It's a big city, there's a lot of love

Once she's pretty sure it's safe  
She goes to a different place  
Decides she's gonna get some guy  
Before she even finds him

And she's got him if she wants him  
But she can't decide if she wants him  
She goes out almost every night  
She cuddles up and she spins aside

He comes in much closer  
And to signal he's still interested  
Some nights are so complicated  
Soft hands are so frustrated  
She never gets in their cars

Never let them tie you up  
It's a big city, there's a lot of love  
Salted rims and frosted mugs  
You gotta get back out there

Flat champagne and inbound trains  
Soft hands and phantom pains  
Never let them tie you up  
It's a big city, there's a lot of love

She's two years off some prairie town  
She dresses up and she spins around  
Little looks and smaller talk  
Heartbreak hurts but you can dance it off

She's two years off some prairie town  
She dresses up and she spins around  
She never lets them tie her down  
It's a big city and there's just so much love

Once you're out there, everything's possible  
Even the bad nights, they aren't all that terrible  
Loosen your grip, it feels so incredible  
Let the city live your life for you tonight

Never let them tie you up  
It's a big city, there's a lot of love  
Salted rims and frosted mugs  
It's a big city
