Cops And Robbers

The Hoosiers

If we catch a criminal When we catch a criminal There's nothing we can do But play cops and robbers Cops and robbers

We're at a revolution And we're baying for your blood We're laying down the law And your name's mud

You'd like to be a member of the human race You want to be a good boy But you couldn't stand the taste

Blame Simon Because he said You've got two lives down And one life left Blame Simon Because he said You could think better with a hole in your head You could think better with a hole in your head

If we catch a criminal When we catch a criminal There's nothing we can do But play cops and robbers Cops and robbers If we catch a criminal When we catch a criminal There's nothing we can do But play cops and robbers Cops and robbers

Catch a revolution Now your waging war again Marching on the spot when you should have made amends Cause you say you fight for us Cross your heart and hope to die You're the bully in the playground and we'll hang you out to dry

Blame Simon Because he said You've got two lives down And one life left Blame Simon Because he said You could think better with a hole in your head You could think better with a hole in your head

If we catch a criminal When we catch a criminal There's nothing we can do But play cops and robbers Cops and robbers If we catch a criminal When we catch a criminal There's nothing we can do But play cops and robbers Cops and robbers If we catch a criminal

Line them up against a wall and shoot them all $\ensuremath{\mathsf{Oh}}$ oh oh

If we catch a criminal When we catch a criminal There's nothing we can do Play cops and robbers Cops and robbers If we catch a criminal When we catch a criminal There's nothing we can do Play cops and robbers

If we catch a criminal There's nothing you or I can do

Line them up against a wall I'll get a gun and shoot them all
