

# Sister Sister

The Hoosiers

She's got magic in her fingertips  
She's turning me on now  
Rubbing shoulders but not kissing lips  
I'll get her home somehow

She's turning heads like a whiplash  
You know she's not to blame  
I've got to wonder where you come from, baby  
With that name

Sister, sister, you have all the fun and  
I insist you leave some for everyone  
I know I know it's a cruel world for you  
Sister, sister

Imagination getting fired up  
She got the money to burn  
I come to see you say you won't mix with me  
It's my turn  
Sister, sister, you have all the fun and  
I insist you leave some for everyone  
I know I know it's a cruel world for you  
Sister, sister you have all the fun and  
I insist you leave some for everyone  
I know I know it's a cruel world for you  
Sister, sister

Can't stand to see you fall apart  
Something has touched my hollow heart  
And I can't watch you do this to yourself

Ah ah ah ah ah  
Sister, sister, you have all the fun and  
I insist you leave some for everyone  
I know I know it's a cruel world for you  
Sister, sister you have all the fun and  
I insist you leave some for everyone  
I know I know it's a cruel world for you  
Sister, sister

Sister, sister  
Sister, sister  
I know I know it's a cruel world  
I know I know it's a cruel world  
I know I know it's a cruel world for you
