The Hope Conspiracy

They build this hell
And now there's no way out
A timeless art of
Tearing this world apart
Thy kingdom come
Forever spilling the blood
Embracing god
Is just killing your self
Destroy the bastards that destroyeed my faith
Every last one
Before it's too late
The line are drawn
In the shadows I walk
While the guilty sleep
I am awake through it all
Your savior is a
Thieving bringer of war
Bullets in his name
Killing political whores
So spend your lives
Hiding the guilty eyes
Suffer. deny
Suffer. deny
When everything you love
Is a holy lie
It's all lies.
