

# Crush Me

The House of Love

Well I never cried  
No I never cried  
And I never feared in the normal way  
But you cut me down  
With a sound

Sometimes you crush me  
Sometimes words will not deny  
That you crush me  
Yeah, yeah, yeah

Well I see your head  
Walking proud and high  
Honey walk a mile  
On that silver ride  
Someone turned their head  
Dropped a glance and said honey

Sometimes you crush me  
And sometimes words will not deny  
That you crush me  
Yeah, yeah, yeah

Sometimes you crush me

There's somebody got a hold of my head  
Put it into a can  
Changed the way that I feel  
Somebody got a hold of my hand  
Put it right through glass

Well I never cried  
No I never cried  
And I never feared in the normal way  
But you cut me down  
With a sound

Sometimes you crush me  
Sometimes words will not deny  
That you crush me  
Yeah, yeah, yeah  
Sometimes words will not deny
