

Safe

The House of Love

I come home when I go out
and I play money
when nothing really matters
I shout at the men
Who fight for their lives
And you know why

Chorus:

It's just so safe
It's safe in a little world
It's safe when you have a girl
It's safe in a little town
Where money grows in your little white hands

And I'll breathe passions from any blue house
I love to love you so dry
Just to challenge your life, challenge your life
For Christ's sake it's something you like

Chorus:

So pray, pray to a Lord
And hope, hope for more
The number have swelled in the years
It's big and it's mighty, the husbands are drunkards
The size just gets bigger through fear
It's safe
