

# Electric Shock

The Human League

Electric Shock  
You make me feel  
You make me real  
Around the clock

Electric Shock  
It feels so right  
A flash of light  
Electric Shock

Electric Shock  
I just can't stop  
From toe to top  
From head to sock

Electric Shock  
A human spark  
Electric arc  
Electric Shock

The static hits  
Burning up and down my spine  
I'll risk a blitz  
For a touch of the divine  
Won't shy away  
'Til my spirit starts to climb  
I'm here to say  
One more time

Electric Shock  
You make me feel  
You make me real  
Around the clock

The static hits  
Burning up and down my spine  
I'll risk a blitz  
For a touch of the divine  
Won't shy away  
'Til my spirit starts to climb  
I'm here to say  
One more time

Electric Shock  
A point sublime  
The whole of time  
To now o'clock

Electric Shock  
A crackling sound  
Much faster then  
A pulse can pound

Through smoke and curiosity  
A boy for you a girl for me  
A beautiful philosophy  
Ozone and electricity

Electric Shock  
You make me feel  
You make me real  
Around the clock

Electric Shock  
A crackling sound  
Much faster then  
A pulse can pound

Electric Shock
