

## The Sign

## The Human League

Around the nation, around the world  
What's been going down?  
A million voices, one question hurled  
Heard in every town  
All of the people, one simple plea  
What will happen now?  
Asked in concern for their destiny  
Got to know somehow

They say  
They say

Everything will be fine  
Everything will be fine  
Everything will be fine  
I saw the sign

So if you want to know what's going on  
Going round and round  
You'd better ask before your world is gone  
Gone without a sound

They say  
They say

Everything will be fine  
Everything will be fine  
Everything will be fine  
I saw the sign  
Everything will be fine  
Everything will be fine  
Everything will be fine  
I saw the sign
