

# Apologies

The Hunna

I just got a weird message  
From a guy I've never met him  
He's telling me I'm gonna get it  
'Cause I took his girl, it's so pathetic

And I know you wanna make him jealous  
But don't make me into a menace  
I only met you for a minute  
Come on, you know we didn't hit it

I, I didn't mean to make you cry  
And I do apologize  
But you, you make me wanna die  
I can hear you telling lies  
And we don't have to pretend  
Can't we just be friends  
I, I do apologize  
But you make me wanna die

I know that you wanna get him  
Back for what he did, I'm sympathetic  
But you gotta think bout what you saying  
It's not just him you're fucking playing

And you don't need me to make him jealous  
Just go out there and be a menace  
Don't let what he did, go and wreck it  
Give yourself some fucking credit

I, I didn't mean to make you cry  
And I do apologize  
But you, you make me wanna die  
I can hear you telling lies  
And we don't have to pretend  
Can't we just be friends  
I, I do apologize  
But you make me wanna die

I, I didn't mean to make you cry  
And I do apologize  
But you, you make me wanna die  
I can hear you telling lies

I, I didn't mean to make you cry  
And I do apologize  
But you, you make me wanna die  
I can hear you telling lies  
And we don't have to pretend  
Can't we just be friends  
I, I do apologize  
But you make me wanna die
