

# Fever

The Hunna

And I've heard what you've been  
Thinking 'bout lately  
And I can't say I  
I haven't thought it too  
And I know that it's on  
And all of these things in the way  
But you know that I'll be  
I'm down when you choose me

She don't  
She don't know why  
Why she can't, hide  
What it feels like  
And it's 'cause

She's got the fever  
I'm gonna tease her  
I gotta see her  
She's got the fever

And you've been checking  
To see if I've called all day  
And I've been drinking  
Thinking what move to make  
And since I came through  
I know that you felt it too  
And I want to know  
Tell me the things that you've been through

And she don't  
She don't know why  
Why she can't hide  
What it feels like  
And it's 'cause

She don't  
She don't know why  
Why she can't hide  
What it feels like  
And it's 'cause

She's got the fever  
I'm gonna tease her  
I gotta see her  
She's got the fever

And she don't  
She don't know why  
Why she can't hide  
What it feels like  
And it's 'cause

She don't  
She don't know why  
Why she can't hide  
What it feels like  
And it's 'cause

She's got the fever  
I'm gonna tease her  
I've gotta see her  
She's got the fever
