

Find A Way Out (Back To You)

The Hunna

I'm done
Too far from healing
This time
You can't shake the feeling

You just can't, beat the past
So it stays down, finds a way
A hold on you now
Swimming round your head, sharks are closing in

I hope you find your way out
Back to you
I hope you find a way out
Oh

Every step you've taken
Fought and won
But it hunts you down, some things you can't outrun
I just can't go on
But that's what they want
And every time
I wanna live
Not just to survive

I hope you find your way out
Back to you
I hope you find a way out
Back to you
Don't give in, it's not too late
Back to you
I hope you find your way out
Oh

You just can't, beat the past
So it stays down, finds a way
A hold on you now

I hope you find your way out
Back to you
I hope you find a way out
Back to you
Don't give in, it's not too late
Back to you
I hope you find your way out
Oh
