

You sure know how to fuck up a good thing  
I won't pick up on the next time that you ring  
It coulda been all good  
It shoulda been all good  
But you misunderstood  
Now there's only one thing I can do

I get high to forget you  
I get high to forget you  
And I don't ever wanna come down  
I get high to forget you  
I get high to forget you  
And I don't ever wanna come down, oh no

You sure know how to fuck up a good time  
I can't let go, so I hide behind bloodshot eyes  
I can still taste you  
Fuck, I just hate you  
Wish I could erase you  
Now there's only one thing I can do

I get high to forget you  
I get high to forget you  
And I don't ever wanna come down  
I get high to forget you  
I get high to forget you  
And I don't ever wanna come down, oh no

And I don't ever wanna come down, oh no  
And I don't ever wanna come down, no  
And I don't ever wanna come down, oh no  
And I don't ever wanna come down, oh no

I get high to forget you  
I get high to forget you  
And I don't ever wanna come down  
I get high to forget you  
I get high to forget you  
And I don't ever wanna come down, oh no
