

One Second Left

The Hunna

I'm coming home at 5AM
And my mind's being thrown 'round this bed again
Sleep stopped working days ago
Staring at the wall

Counting every second down
Watch 'em fly by
Just take the wheel again
Show me how to ride
Before we all run outta time

Damn, there goes my head
Damn, there goes my head
Playing tricks with me again
Tricks with me again
I ain't got the time
To be trapped inside my mind

Damn, there goes my head
Damn, there goes my head
Playing tricks with me again
Tricks with me again
I ain't got the time
To be trapped inside my mind

One second
One second, one second left
One second, one second left

I feel at any moment we could crash
Living every moment like my last
Looking at the mirror through the cracks
There's writing on the walls it's talking back, yeah

Counting every second down
Watch 'em fly by
Just take the wheel again
Show me how to ride
Before we all run outta time

And damn there goes my head
Damn there goes my head
Playing tricks with me again
Tricks with me again
I ain't got the time
To be trapped inside my mind

Damn, there goes my head
Damn, there goes my head
Playing tricks with me again
Tricks with me again
I ain't got the time
To be trapped inside my mind

One second
One second, one second left
One second, one second left

One second, one second left
One second, one second left
