

Love You Much Better

The Hush Sound

Why do you sing to everybody but me? Why do I let it go on?
You've got such a music box song in my head all day long.
You fell for a girl with wild eyes, dressed in satin and lace.
She's just an empty diamond mine with moan across her face.

I can love you much better
If you can't see it you're blind
I can love you much better
And you know someday I'm going to make you mine.

You are the daydream in my eyes, there whenever I wake up
But the colors never crystallize and I never get enough
And while you kiss everybody but me, I just sit back and watch
But one day soon, I'm gonna grab you by the collar
and kiss you all I want!

I can love you much better
If you can't see it you're blind
I can love you much better
And you know someday, I'm gonna make you mine.

I can love you much better
I can love you all right.
I can love you much better
And you know someday, I'm gonna make you mine.
