

# In The Cauldron Of Love

The Icicle Works

(McNabb)

There's something happening in the cauldron of love,  
We eagerly wait to feel the labours of love,  
On the shallow river, we were hatching schemes,  
Maybe life isn't what it seems,  
Under grapefruit moon, we would roll in the grass,  
You said those times would never pass,  
You said in love was where you wanted to be,  
But where I ran you wouldn't follow me,  
Chorus: The world is waiting for cohesion to come through,  
Anticipation of a line that rings true,  
Patch it up with string and glue,  
Look who waits for you,  
In the cauldron of love...  
Repeat First Verse  
Repeat Chorus  
Are you in there?
