

## (Let's Go) Down to the River

The Icicle Works

Let's go down to the river  
Make love beside the water  
Lets go down to the river tonight, tonight

Way too long I've waited for you  
Counted every minute until  
I knew that I'll be here looking into your eyes  
Our good friends have no idea  
How I feel when I'm without you  
Waiting by the roadside for a bus that never comes  
You believe what you want to believe  
I've got good love I'd like to give you  
Hold your hands I'll close your eyes and see it

Let's go down to the river  
Make love beside the water  
Lets go down to the river tonight, tonight  
Let's go down to the river  
Make love beside the water  
Lets go down to the river tonight

Morning through I'm lost without you  
Come the weekend spend my wages  
Got a loving smile it turns me around

Way too long I've waited for you  
Counted every minute until  
I knew that I'll be here looking in your eyes

You believe what you want to believe  
I've got good love I'd like to give you  
Hold your hands I'll close your eyes and see it

Let's go down to the river  
Make love beside the water  
Lets go down to the river tonight, tonight  
Let's go down to the river  
Make love beside the water  
Lets go down to the river tonight
