

# Can't Work No Longer

The Impressions

Ah, ah, ah...

I just can't work no longer  
I've got to see my woman right now  
And we ain't gettin' any younger  
I've got to get to her love somehow

When clouds come it's rainin'  
The Sun come and shine now  
Lord I ain't complainin'  
I've done wrong and I'm serving my time, but now  
If there's any good in me  
I'll bring it out so that you might see  
That I'm just another lonely little man that wants ta  
Stop myself and all over begin, and now

I just can't work no longer  
I've got to see my woman right now  
And we ain't gettin' any younger  
I've got to get to her love somehow

This woman on the other side  
She's my joy and all of my pride  
Though I've hurt her so constantly  
Still my woman loves and has faith in me  
But how long can a good thing last  
Though I'm proud never to hurt her in the past  
Will she be there waitin' for me  
Five long years when I will be free

And I just can't work no longer  
I've got to see my woman right now  
And we ain't gettin' any younger  
I've got to get to her love somehow

Ah, ah, ah...
