

Don't Let It Hide

The Impressions

If you wanna get away, from me
If you don't care to be by my side
If things to you aren't like they used to be
Don't let it hide
Don't let it hide

Speak your mind if we can't get along
That's what I believe in
If you're not happy though a we are strong
Don't let it hide
Don't let it hide

When you kiss me thrills go down my back
But I've got a feeling it's just an act
Sometimes you make me wonder if you're really true
And if it worries me, the way it worries you

If you wanna get away, from me
If you don't care to be by my side
If things to you aren't like they used to be
Don't let it hide
Don't let it hide

Speak to me if we can't get along
That's what I believe in
If you're not happy though a we are strong
Don't let it hide
Don't let it hide
Don't let it hide
Don't let it hide
Don't let it hide
