

## East Of Java

## The Impressions

Java girl  
In your arms I found (I found) (I found)  
The best of the world

Java girl  
For your love, I'll need (I need) (I need)  
The rest of the world

Somewhere east  
East of Java

An ember moon lights up the skies  
And there a pair of almond eyes  
Look out to sea  
And search, for me

East of Java, east of Java, east of Java

Java girl  
Never more, will I (will I) (will I)  
Go sailing away

Java girl  
With my heart in hand (in hand) (in hand)  
I'm coming to stay

Somewhere east  
East of Java

An ember moon lights up the skies  
And there a pair of almond eyes  
Look out to sea  
And search, for me

East of Java, east of Java, east of Java  
East of Java, east of Java, east of Java  
East of Java, east of Java, east of Java
