

I Need Your Love

The Impressions

I need your love dear
And I need your smile dear
Not once in a while dear
But right now

So don't keep me waiting
For I'm not playing
I need your love dear
Right now

Sometimes I'm a lonely
Sometimes I'm blue
But I'm always happy
When I'm with you

Tell me you want me
And tell me you need me
Tell me you love me
Right now

But when you hold me
The world didn't fold me
And my heart keeps telling me
That you love me too

So tell me my hearts not fooling me
Tell me my hearts not ruling me
Why don't you tell me your love
Is mine right now

Woah when you hold me
When you confess your love
Woah when you tell me your love
Is mine right now

And my world gets brighter
And this old load gets a little lighter
Girl I need your love, right now

So darling I've been singing this song
What's seems so very very long
Wondering, hoping and praying
