

Moonlight Shadows

The Impressions

In the shadow of the night
I see two love sitting in the moonlight shadow,
Two love kissing in the still of the night

There's another couple
Wandering through the moonlight shadows,
Hand in hand strolling through the nights moonlight

Oh, but me
I have no love
There's nothing here for me
If I could only find a true love
How happy I would be

I would wander
Wander through the moonlight shadow
Hand in hand kissing in the still of the night

In the shadows
Moonlight shado-woah-woah-ohs
In the shadows
Moonlight shado-woah-woah-oh
Moonlight shadow
