

Sister Love

The Impressions

She hurts like the sting of a whip (my sister love)
Then thrills your heart with her sweet lip (my sister love)
She quickly fly away like a dove (my sister love)
These are the ways of the girl you love
These are the ways of sister love

And we all got to put up with her sometime
One and all got to put up with her sometime

There's never a moments rest (my sister love)
When your heart beats fast within your chest (my sister love)
Your mind begin thinking of (my sister love)
The things you will do for the girl you love
The things you will do for sister love

And we all got to put up with her sometime
One and alls got to put up and I don't mind

Let me ask you now
Who leaves your heart broke (sister love)
Has in love all kind of folk (sister love)
Who's got you holdin' hands (sister love)
What makes ya understand (sister love)

And we all got to put up with her sometime
One and alls got to put up and I don't mind

These are the ways of the girl you love
These are the ways of sister love

And we all got to put up with her sometime
One and alls got to put up with her sometime
And we all got to put up with her sometime
One and alls got to put up with her sometime
And we all got to put up
