

Somebody Help Me

The Impressions

Somebody help me, get outta this mood
Somebody help me, get outta this mood
Somebody stop me, from cryin' all night
Somebody help me, so that I might see the light
I'm gettin' sick 'n' tired of being hurt
Over and over again
From that woman I love

Somebody help me, get outta this mood
Somebody help me, get outta this mood
I've tried to live my life
Over and over again
But this woman keeps doggin' me
Talkin' about other plans
And I'm gettin' sick 'n' tired of being hurt
Over and over again
From that woman I love

Somebody help me, get outta this mood
Somebody help me, get outta this mood
I've tried to live my life
Over and over again
But this woman keeps doggin' me
Talkin' about other plans
And I'm gettin' sick 'n' tired of being hurt
Over and over again
From that woman I love
