

The Girl I Find

The Impressions

Here's another girl
And I'm afraid she will be gone
Like the others before her
Here's another chance
To make myself belong
And this time I wanna keep her

For the girl I find
Stays on my mind
She has opened up my eyes
As though I was blind

Oh lord I must find the strength somewhere
For I find I really care
And today's opportunity
Has at last found someone to share
The things I wouldn't have dared
'Cause I never felt they were meant for me

But this girl I find
Stays on my mind
She has opened up my eyes
As though I were blind

This girl I find
Stays on my mind
She has opened up my eyes
As though I were blind
The girl I find
Stays on my mind
She's opened up my eyes
As though I was blind

Oh lord I must find the strength somewhere
For I find I really care
And today's opportunity
Has at last found someone to share
The things I wouldn't have dared
'Cause I never felt they were meant for me
And here's another girl
And I'm afraid she will be gone
