

This Is The Life

The Impressions

This is the life
Here's where the living is
This is the life
Baby we're there

This is the life
We waited long enough
Now we've arrived
Breathe in the air

Wine and perfume
Silver and candlelight
People make way
We're here to stay

Nothin' but class
That's how it's gonna be
This is the life for me

Top of the heap
First cabin all the way
How sweet the song
When you belong

We got nothin' but class
That's how it's gonna be
This is the life for me
