

Rain

The Inchtabokatables

all the times i talked to you
all the hard times we went through
i will stay with you
i will stay with you

all the meanings never found
just took us to the ground to the ground
i will stay with you
i will stay with you

you send me on my desert runs
you're in my arms with loaded guns
and i have to stay
i have to stay

i get you in your border stamps
you see me through these broken lense
i will stay with you
i will stay with you

i find you in your border stamps
you see me through these broken lense
i have to stay
i have to stay

i get you in your border stamps
you see me through these broken lense
i will stay with you
i will stay with you

so i throw away your pain
and i'm with you on this endless rail
i will stay with you
i will stay with you
