

Sleep Tight

The Inchtabolables

hey you behind your wall
don't you see your friend is gonna die
keep closed your eyes and stay in bed
I know you're tired now
last night was hard - so don't care for him
be sure he wouldn't care for you

dance around and don't take care for nothing on this earth
yes it's your life - so sleep tight

Remember how you laughed
last night when she told you about the world
and you heard, you heard how she cried
I know you're tired now
I won't disturb you
enjoy drugging dreams
take everything you can get

dance around and don't take care for nothing on this earth
yes it's your life - so sleep tight
