

By My Side

The Infamous Stringdusters

I've tried and tried to find my way back home again, in search
of my youth
I cried and cried, though I knew you'd said goodbye, and that's
the honest truth

As time passes me by, wonder who will be by my side
Will I still be alone despite that I have tried and tried, and
tried

I came and came, until the day the door opened and I could not
find you
You waved, you waved, though I have known all of the signs that
I'd come to

As time passes me by, wonder who will be by my side
Will I still be alone despite that I have tried and tried, and
tried

I've tried to hide behind my eyes to make you think that I have
moved on
We turn, we turn, though I get burned everytime your mind decid
es to change

As time passes me by, wonder who will be by my side
Will I still be alone despite that I have tried and tried, and
tried

I've tried and tried to find my way back home again, in search
of my youth
I cried and cried, though I knew you'd said goodbye, and that's
the honest truth

As time passes me by, wonder who will be by my side
Will I still be alone despite that I have tried and tried, and
tried

Oh, will I still be alone despite that I have tried and tried,
and tried
