

# Have A Little Faith

The Infamous Stringdusters

Mmm

Uh

Uh huh

Leave a little space for somethin' special  
To ease your heart  
Now take a little time for somethin' real  
To warm your soul  
Show a little faith in humankind  
For your children  
Don't let the fear the world is spreading  
Take all control  
Don't let it, no

Have a little faith  
(Faith)  
Have a little faith  
(Faith)  
Won't you have a little faith  
That we'll be fine?  
Have a little faith  
(Faith)  
Have a little faith  
(Faith)  
Won't you have a little faith  
In yours and mine?  
Have a little faith  
And we'll be fine

Yes, we will  
Goin' be fine  
Mmhmm  
Goin' be fine

Find a little moment  
Of reflection  
Recall the day  
Think about it  
Take a little break  
From all the noise we hear  
With our eyes  
Most of the time  
Shine a little light on  
beauty  
That you can touch  
That are right here before you  
And take it your prize  
Go live your life

Have a little faith  
(Faith)  
Yes, have a little faith  
(Faith)  
Won't you have a little faith  
And you'll be fine  
Have a little faith, come on  
(Faith)

Have a little faith  
(Faith)  
Have a little faith  
In yours and mine  
Have a little faith  
And you'll be fine

We're goin' be fine  
Just believe in somethin'  
Have a little faith  
In yourself
