

I Run To You

The Infamous Stringdusters

So many miles, so far from home
All of those nights I woke up alone
When every face tells me I don't belong
It's always been you that keeps me hanging on

Anywhere our story leads
Feels Like gravity
I run to you
Take me there
Take me far away
No, I'm not afraid
I run to you
Whoa, Whoa, I run to you

So careless and wild, a leaf on the wind
Most of my life, it never made sense
Just another lost soul with nothing to lose
Until the day that I found you

Anywhere our story leads
Feels Like gravity
I run to you
Take me there
Take me all the way
No, I'm not afraid
I run to you
Whoa, Whoa, I run to you

Anywhere our story leads
Feels Like gravity
I run to you
Whoa, Whoa, I run to you
