

## Let It Go

### The Infamous Stringdusters

Whatcha doin', where ya' goin'  
Tossed by the winds that are blowin'  
High time you went inside

For a long time I been trying  
Even thought that I was a flying  
High time you let it go

If it's worry you been feelin'  
Over things you can't control  
Hey it's time to let it go  
If you think that you can make a difference  
And the fire is in your soul  
Go ahead and take your stand  
And if you can't then let it go  
Yeah, just let it go

If the path that you been making  
Ain't the one you wanna be taking  
Step back and look inside

If you stumble on the gravel  
Find another road to travel  
Take a chance and let it go

If it's worry you been feelin'  
Over things you can't control  
Hey it's time to let it go  
If you think that you can make a difference  
And the fire is in your soul  
Go ahead and take your stand  
And if you can't then let it go  
Yeah, just let it go

If it's worry you been feelin'  
Over things you can't control  
Hey it's time to let it go  
If you think that you can make a difference  
And the fire is in your soul  
Go ahead and take your stand  
And if you can't then let it go  
Yeah, just let it go

Hey, just let it go
