# Let Me Know

**The Infamous Stringdusters**

Off the edge I'm fallin
Can't you hear me callin
Won't you come along into the light
All your questions answered
As we drift into the night

Will your love be burning
When the world stops turning
I see a fire up in the sky
Or will my heart be breaking
When your love decides to fly

Let me know
Let me know tonight
Let me know
Tell me if I'm right or wrong
Before too long

A western wind is blowin
Through the fields showin
Seasons come and the season go
We've got a little time
If time goes slow

The sun is getting low
Tension in my soul
Keeps me running for the days gone by
I want those days again
Before I die

Let me know
Let me know tonight
Let me know
Tell me if I'm right or wrong
Before too long
Before too

Let me know
Let me know tonight
Let me know
Tell me if I'm right or wrong
Before too long
Before too long
