

Like I Do

The Infamous Stringdusters

Read the words off the back of your hand
like I do, like I do.
Say them loud so the world can understand
like I do, like I do.
You can't keep your head on straight,
so don't hesitate to concentrate but don't be late for
school.
Read the words off the back of your hand
like I do, like I do, like I do.

Take a stick and draw a line in the sand
like I do, like I do.
Just make sure they know you are in command
like I do, like I do.
You can't keep your mind at ease,
but a gentle breeze blows through the trees if you
appease the school.
Take a stick and draw a line in the sand
like I do, like I do, like I do.

Slanted statues spewing out on cue,
books of faces blocking a clear view,
it doesn't matter if the words are true,
as long as what they want comes out of you.

Make it up when there's something you don't know
like I do, like I do.
Chalk it up just as part of the show
like I do, like I do.
You can look in to their eyes,
but don't compromise and don't revise to realize the
school.
Make it up when there's something you don't know
like I do, like I do, like I do.
