

Love One Another

The Infamous Stringdusters

Up on the mountain, it's so hard to climb
Searching for treasure you can't seem to find
Look at the world from a different view
The treasure you're seeking is right next to you

Cause we're all bound together
When you're down, I'll help you, brother
Only love lasts forever
So let's love one another
Let's love one another

So go help a stranger and lend them a hand
Give them a compass and they'll understand
There's always a shepherd who's guiding them through
Look at the needle, it's pointing at you

Cause we're all bound together
When you're down, I'll help you, brother
Only love lasts forever
So let's love one another
Let's love one another
Let's love one another
Let's love one another

Cause we're all bound together
When you're down, I'll help you, brother
Only love lasts forever
So let's love one another
Let's love one another
Let's love one another
Let's love one another
