

Planets

The Infamous Stringdusters

When will the planets align?
What's taking so long? It happens all the time
Where do I go? Where is my mind?
When will the planets align?

Have we come under?
Are we falling? Are we falling?

When will this floating subside?
The rain keeps pouring down, no end in sight
How do we know if we'll make it out alive?
When will this floating subside?

Have we come under?
Are we falling? Are we falling?

All the spaces in-between
What we say and what we think we need
Will we ever be as one?
Or just planets circling the sun?

When will the planets align?
What's taking so long? We're running out of time
Where did we go? We've lost our minds
When will the planets align?

Have we come under?
Are we falling? Are we falling?

All the spaces in-between
What we say and what we think we need
Will we ever be as one?
Or just planets circling the sun?

Have we come under?
Are we falling? Are we falling?

All the spaces in-between
What we say and what we think we need
Will we ever be as one?
Or just planets circling the sun?
Or just planets circling the sun?
Or just planets circling the sun?
