Rainbows

The Infamous Stringdusters

I've done time
In a place where no one goes
Hoping for my best to show, again

In my mind
There's a place where I could find
All the love I've left behind, but then

I keep reaching for that rainbow
Rainbow in the sky

Why can't I
Just let go of all my fears
Let me feel, let there be some rain

In the sky
Vivid colors in the air
I get close but can't get near, again

I keep reaching for that rainbow
Rainbow in the sky

Rushing out into the rain
Hoping not to feel the same
I give it all I've got again
Tyring not to go insane

I've done time
In a place where no one goes
Hoping for my best to show, again
