

Rock And Roll

The Infamous Stringdusters

I see your face when I lay down
And hear your voice when there's no sound

Let me be your rock and roll
I'll let you be my rock and roll
Been gone so long I don't know
If we're up high or down low
Let me be your rock and roll
I'll let you be my rock and roll

I'll give you my right for your left
And give you my sight for your breath

Let me be your rock and roll
I'll let you be my rock and roll

If only I could find a way
To see you one more time I'd say

Let me be your rock and roll
I'll let you be my rock and roll
Let me be your rock and roll
I'll let you be my rock and roll
