

Somewhere in Between

The Infamous Stringdusters

The map says my way takes too long
But I wanna get there late
And my friends telling me I'm wrong
Hey, but it's my time to hesitate

Well, if you're lost and you're caught up in limbo
From where you come and where you gotta go
Well, you don't have to understand what I mean
I'm just somewhere in-between

There's something strange about this place
Just when you think you seen it all
Hey, someone's taking up your space
And someone's breaking down your walls

Well, if you're lost and you're caught up in limbo
From where you come and where you gotta go
Well, you don't have to understand what I mean
I'm just somewhere in-between
Well, you don't have to understand just what I mean
I'm just somewhere in-between

Well, you gotta keep on moving
Calculate your root and
Pick 'em and a-choose 'em
Where you gotta go?
Inside, we all know
Hey, inside, we all know, hey
Hey, inside, we all know

The map says my way takes too long
But I wanna get there late
