

Summertime

The Infamous Stringdusters

Remember when
We were young, and alive
It was all a rhythm
Remember when
We were young, and in love
Seemed so simple

When we met, summertime
When we fell, down in the river
When we met, summertime
Seen my head, in faint shimmers

Remember when
We were young, and hoped
Was so easy
Remember when
We were young, and hate
Was only feeling

When we met, summertime
When we fell, down in the river
When we met, summertime
Seen my head, in faint shimmers

Everything in shimmers

When we met, summertime
When we swam, down in the river
When we met, summertime
Seen' life in, faint shimmers
