This Ol' Building

The Infamous Stringdusters

This old building is crumbling down
Ain't no people to gather 'round
This old building is crumbling down to the ground

There's no place to hide
If we keep up what's inside
Ain't no way it won't go
Once the wrecking ball gets thrown

This old building is crumbling down
Ain't no people to gather 'round
This old building is crumbling down to the ground

Light the fuse and walk away
Don't save it for a rainy day
Once you're further down that road
You won't hear the place explode

Once it's down you'll wish you could
Build it back but it's gone for good
And don't look back, you won't see
The home of the brave, the land of the free

This old building is crumbling down
Ain't no people to gather 'round
This old building is crumbling down to the ground
