# Vertigo

**The Infamous Stringdusters**

Certainty is like a bone
Holding you up until it breaks
Fractures on an Icy river
It's good to know the stakes

You built us castles on a mountain
Climbing up into the sky
There's no easy way to get there but to fly

You give me Vertigo
Like I've never known
Don't let me go
You give me Vertigo

I tried to build us wings to get there
Though our dream was out of sight
But when it came time to use them
I couldn't stand the height

You put your heart up on a hillside
Late at night it burned like fire
I could see it in the distance growing higher and higher

You keep me spinning
Like a hurricane in my heart
The wind is blowing
Blowing me apart
