

# The Sweetest Dream

## The Ink Spots

The sweetest dream began in my heart when I first met you  
I held your hand and that was the start of a dream for two  
The bluest eyes had never been seen, the sweetest voice never heard

'Til I looked in your eyes and heard you speak one word

The sweetest lips are those I caressed when I held you tight  
The sweetest words no one had confessed as you did last night  
When I heard you softly whisper "I love you, my darling"  
The sweetest dream came true

[Spoken]

The sweetest lips, honey-child  
Are those I caressed when I held you tight  
And the sweetest words had ever confessed  
The way you did last night, mmh mmh mmh

[Sung]

When I heard you softly whisper "I love you, my darling"  
The sweetest dream came true
