

This Boat

The Innocence Mission

This boat, I started out here to say,
before it rowed ashore, became a plane
over the buildings of later day,
over the buildings and over my head.

Things that we started out here to say
went down the street and turned into a day
we couldn't see, we could not explain.
We couldn't see it, we could not explain.

What went wrong has never been your fault.
The sun, the sun,
we're waiting on the sun,
start over.

Things that we started out here to say
went down the street and turned into a day
we couldn't see, we could not explain.
We couldn't see it, we could not explain.
